NUMBERS OF BIRDS PLACED IN BASKETS

Please note that your club strictly adheres to R.P.R.A. rules re numbers of birds in baskets / crates: -

RPRA Rule 127. a) Any member or Organisation arranging for the conveying of racing pigeons shall, where the number of birds carried exceeds 500, ensure that the vehicle used is adequately fitted with equipment for the controlling of fires.

b) The number of pigeons placed in the basket or container must be restricted relevant to the distance and time spent in them. The following figures must be strictly adhered to. Failure to do so may entail suspension of the individuals or organisation responsible. **The nights in the basket to be from the day of marking to the projected day of liberation.**

Time Minimum floor area per pigeon

0 or 1 night 44 sq. ins.

2 nights 52 sq. ins.

over 2 nights 60 sq. ins.

See Appendix F

APPENDIX 'F' (SEE RULE 127)

HEADROOM

As from 2008 any new vehicles are to have a minimum internal headroom of 10 inches for baskets/crates. The current standard recommended is a minimum of 9".

The relevant parts of R.P.R.A. rule 127 have been highlighted.

The National Flying Clubs baskets measure 33" by 47". The calculation is $33 \times 47 = 1551 \text{ sq. ins.}$

For two nights in the basket as highlighted above, 1551 divided by 52 sq. ins = **29.83 birds maximum allowed** in the National Flying Clubs crates, flying in the races: -

1) Fougères; 2) Messac; 3) Tours; 5) Sigogne; 6 & 7) Countances YB & OH.

For three nights and over, in the basket as above, 1551 divided by 60 sq. ins = **25.85 birds maximum allowed** in the National Flying Clubs crates, flying in the race; -

4) Pau Grand National.

The club cannot guarantee how many birds will be placed into the baskets but will ensure that they will not exceed the R.P.R.A. legislation limits. The club have done and will place lower numbers in baskets when on each occasion, race entries are known and it is appropriate to do so.

If you have any queries, please contact your officials. We will be more than happy to help you understand the correct circumstances etc.

Helpful questions and answers: -

Q1. Why do the club 'cram' in as many as they can?

A1. The club doesn't. We place in, an appropriate number under legislation limits. The welfare of the birds is a priority and successful racing, results in success for the club.

Q2. My other organisation i.e. club, federation, combine etc., only put 20 or 24 in, why are the National doing wrong and putting 29 in?

A2. On questioning various members, their own organisations use baskets half the size or smaller than the National. The National Flying Club are doing it right and comparison by numbers in baskets alone is absurd!

Q3. How will the birds eat or drink with that many in?

A3. The birds are fed and watered on three sides of the baskets and with facilities where we have fed in the centre of the baskets, this is more facility than any other club we are aware of. We deem ourselves to have the best facilities and this results in the best racing in the United Kingdom, if not the world. We receive many compliments from members stating how well the condition of their birds are in, when they return from a race, even if it's been a testing race re the weather or when holdovers have occurred!

Q4. I am unhappy with the numbers in the baskets, I am going to write to the papers and on a chatroom somewhere. What do you say about that?

A4. We highlight that the numbers in a basket are correct re legislation and with the bird's welfare in mind, but we also point out that every member has the right to freedom of speech, but with this right, there is a responsibility to say what is truthful and correct. As a member of a club, we do not expect members to publicly write to the fancy press and/or online chat rooms where none members will read the comments which may well

be incorrect, liable and may stop new members joining. Speak or write to your officials, committee members etc., ask for a response. Search out what is right from those in the know and don't give your club any bad and unwarranted publicity. Your officials, management committee and the majority of the members, the Club as a whole with past Dukes, Princes and Kings as Presidents, with the clubs' heritage and yet forward thinking approach, want what's best for this great club.

Since 2007, Kurt and Raf Platteeuw are constantly at the top of the Belgian pigeon sport. In 2007 they said goodbye to all fixed systems and the plans were completely changed. A revolutionary new system! In this system, nutrition is an important aspect for the Platteeuw family, especially focusing on recovery and recuperation. Kurt went to work on putting together a mixture which they can use to feed their racing colony on a daily basis: Platteeuw Special N° 523.

Kurt only wanted to produce this mixture with the best quality, so his first choice was Vanrobaeys. The results using this mix have been extraordinary. Due to the high demand from home and abroad, it was decided to offer N° 523 on the market. Before the start of the 2019 racing season, we worked together with Kurt, Raf and our food specialist to optimize the mixture. Extra Bordeaux Cribbs Maize and the superfood Quinoa were added.

This adjustment proved to be a huge success. They achieved in 2019 alone 3 national victories and 5x National Ace Pigeon KBDB in the top 15!

6. Neither the Committee nor any officer of the Club shall be held liable to any

clock owner for any damage or loss that may occur whilst the clock is in their or his/her custody; or in the custody of another competitor or in transit; but every holder of a clock shall be responsible for the clock issued.

GUIDANCE FOR LOCAL CLUBS SETTING CLOCKS FOR THE NATIONAL FLYING CLUB

We ask you to remember that some of the staff at the office of the National Flying Club are not pigeon fanciers and what is obvious to us is not to them. They can only type what they see on the envelopes.

We respectfully make the following requests to you and your helpers: -

1. PRINT ALL letters and figures clearly. Please make sure, as much as you possibly can, that all details on the envelope are clear, in the correct place, addresses are complete and all information is **ACCURATE**.
2. Help by checking that the members using your clock station or club have quoted their correct membership and are within the correct section. It must be the same as on his or her verification card. The verification card must be put in the members clock envelope and sent to the Secretary. If it is a Partnership, print the title in **FULL**. I fully appreciate that this is the member's personal responsibility, but some may require assistance.
3. Make sure that **ALL** dates are correct. Write in the month and put the dates in the box.
4. All times must be recorded on the 24 hour system. The computer works on this system and dials are printed this way for this purpose. Printing clocks record on the 12 hour system and must therefore be converted to the 24 hour system. If you have any members using a race master, please convert the time recorded to the 24 hour system.
5. **DISTANCES**. You do not need to put any distances onto the clock envelope, distances are received direct from the RPRA via computer.
6. **RUBBER RING NUMBERS**. Endeavour to write the outside and inside number in the correct box.
7. On using old clock envelopes, if a member clocks more than 5 birds or if a member clocks more birds than there are spaces on the clock envelope. Complete fully all envelopes. Never place one envelope inside another. Number them 1 and 2 and pin them together. Clock and master timer envelopes are available from the marking stations. E.T.S. only the printout and the verification form is required to be sent.
8. If a member has his/her **CLOCK RE-SET** because of a fault, then two envelopes must be completed. Place 'DUD' dials in one, mark it 'RESET', and send to the secretary.
9. If there is something wrong with a members clocking, such as a stopped clock, or he/she has failed to abide by the verification rule, you must send all dials etc., to the secretary and mark clearly on the envelope what is wrong. Clock setters or official clock stations cannot disqualify members: only the committee can do this.
10. Remember to complete and send to the secretary **MASTER TIMER RIBBON AND ENVELOPE**, complete the box requesting number of members who had a clock set.
11. Clock setters / Officers I/c. Never have anything to do with your own clock or clock envelope. Get someone else to complete sign and post it.
12. Clock envelopes / printouts etc., to be posted to the secretary as early as possible. **Post 1st class and send by recorded delivery.** There is no need to register. Post the next day after clock opening or on the Monday following the race - if flown on Saturday.
13. All clocks must go out from setting with number one box showing.
14. You are not required to supply dials or ribbons. Members must bring their own.
15. **CLOCKS** can be set 3 days prior to the date appointed for the liberation. For clocks requiring re-setting, the original clock envelopes should be marked 'RE-SET' and signed. **A NEW ENVELOPE SHOULD THEN BE USED.** In this case please be careful to insert on the clock envelope the correct date when the clock was re-set.
16. Clocks must be brought in sealed and have inside the box or clock a relevant Testing Certificate. Refuse any clock that is not sealed or does not have this certificate according to R.P.R.A. Rules.
17. **IT IS VERY IMPORTANT** to remember that All clocks must be checked in accordance with R.P.R.A. rules, clocks which do not show the day of timing in must be controlled if not checked on the day of timing, the day and time of clock checking will be determined by the officer I/c of the clock station. See Clock rule 5.
18. Master Timer is to be set and checked from Greenwich Time taken from the last pip of a BBC Time signal or from 'Tim'. The Master Timer must be struck with each batch of members clocks. After clock setting is completed the master timer must be struck against GMT and then stripped ready for resetting either for a re-set, should one be required, or for the checking of members clocks. When checking has been completed a final strike must be made with GMT before stripping the master timer. Whilst in use the Master Timer must be locked and sealed, depending on the type of clock used. This does away with any **DOUBLE VARIATION**. **CLOCKS MUST BE STRUCK OFF ON AN EVEN FIVE MINUTES**, any variation on the master to be adjusted so the variation on the Members clock is 'Actual', with no double variation being necessary.
19. **MASTER TIMER ENVELOPES**. Complete one of these for each race, recording all setting and checking times with GMT and variations. Put master timer dials or roll inside and send, with members clock envelopes, to the secretary. Ensure that the dials are signed and dated. Put members dials, rubbers, seals and verification card into the clock envelope, but do not seal it. Send it **by RECORDED DELIVERY** to the secretary in a large envelope. **THERE IS NO NEED TO REGISTER THE PACKAGES.**
20. **CLOCK ENVELOPES**. Please print one figure or letter only in each box. Complete all details. Record

the puncture details from the dials only. Do not work out any variations as the computer does this. The only adjustment is when the clock has been set an hour fast or slow. In this case ENTER on the clock envelope the correct hour and not the punctured hour. **Clock setters must write their name, address and phone number on the back of the clock envelope and/or master timer envelope / printout and be countersigned by an independent R.P.R.A. member.** The fly sheet or front part of the Clock Envelope, after completion, should be returned to the competitor.

21. After Clock Setting complete a Clock Record Sheet. This sheet should list the members name, clock make and number, time set and variation, seal serial letter and number and the number of the slot showing. Only after checking, need a clock envelope be completed. It is important that the clock record sheet is retained by you for future reference.
22. Clock fees are £1 per clock and re-sets are also £1 per clock paid by the member to the clock setter. Members must supply their own dials or ribbons for printers.
23. **COMPETING MEMBERS IN CHARGE OF CLOCK**

STATIONS OR LOCAL CLUB CLOCK SETTING SHOULD NOT AT ANY TIME, AFTER SUBMITTING THEIR CLOCKS FOR CHECKING, HAVE POSSESSION OF THEIR OWN ENVELOPE. These should be signed and posted to the secretary by another member.

24. Liberation Times. Liberation times can be got from the Race Update line. Telephone Number. Also from the web site: - www.NationalFlyingClub.Co.Uk Do not phone a committee member.
25. List of early times. The list of early times will be sorted on the Race Verification Line and on the internet by the Secretary. This way we should achieve a comprehensive list for publication in the fancy press, the following weekend.
26. The above instructions are quite straight forward and vary little from normal club procedure. Where they do vary it is necessary so that correct information can be given to the computer, but if all instructions are carefully followed no difficulties should arise. The National Flying Club appreciates the work of the Clock Stations, its officials and club clock setters, without whose help no result would be possible.

CLOCKS & CLOCK STATIONS

CLOCKS - PLEASE NOTE

Make certain that your clock is in good running order.

When transferring your clock from one Station to another make sure that R.P.R.A. Rules have been carried out. If yours is a puncture clock you have to provide your own dials; if it is a printer then check carefully that the ribbon and roll are in good order.

BEFORE leaving the Clock Station, check that your clock has a locking puncture or locking print and that it has been struck to the Master Timer.

If your clock has to be sealed see that it has been done according to R.P.R.A. Rules, with the official seals sold by the R.P.R.A.

Members using two clocks must be clearly labelled one and two.

If any of these rules are broken, it may lead to disqualification.

LIBERATION NEWS

Members may obtain the time of liberation, in any of the races, from the clubs own Race Update Line.

Phone 0906 753 4040. *Calls are charged at 80p per minute at all times inc. VAT.*

Liberation times will also be available on the club's website: - www.NationalFlyingClub.Co.Uk

As most clock station officials themselves compete in racing, members are requested to consider and to co-operate with them at all times.

It is most important that both competitors and Clock Station officials make sure that figures and letters on Clock Envelopes are in the correct boxes and legible, otherwise errors occur causing not only delays in publication of results but loss of winnings to competitors.

THE PIGEON CLOCK HAS EVOLVED

Over the years, pigeon racing has seen the use of mechanical puncture clocks and battery or quartz printing clocks, before the first type of digital data recording with the T3. Finally, we are in an age of Electronic Timing Systems.

Topigeon has since become one of the most trusted brands and providers of ETS pigeon clocks for pigeon racing worldwide.
