NUMBERS OF BIRDS PLACED IN BASKETS

Please note that your club strictly adheres to R.P.R.A. rules re numbers of birds in baskets / crates: -

RPRA Rule 127. a) Any member or Organisation arranging for the conveying of racing pigeons shall, where the number of birds carried exceeds 500, ensure that the vehicle used is adequately fitted with equipment for the controlling of fires.

b) The number of pigeons placed in the basket or container must be restricted relevant to the distance and time spent in them. The following figures must be strictly adhered to. Failure to do so may entail suspension of the individuals or organisation responsible. **The nights in the basket to be from the day of marking to the projected day of liberation.**

Time Minimum floor area per pigeon

0 or 1 night 44 sq. ins.

2 nights 52 sq. ins.

over 2 nights 60 sq. ins.

See Appendix F

APPENDIX 'F' (SEE RULE 127)

HEADROOM

As from 2008 any new vehicles are to have a minimum internal headroom of 10 inches for baskets/crates. The current standard recommended is a minimum of 9 inches.

The relevant parts of R.P.R.A. rule 127 have been highlighted.

The National Flying Club's baskets measure 33" by 47". The calculation is $33 \times 47 = 1551$ sq. ins.

For two nights in the basket as highlighted above, 1551 divided by 52 sq. ins = **29.83 birds maximum allowed** in the National Flying Club's crates, flying in the races: -

1) Coutances; 2) Messac; 3) Nort-sur-Erdre; 5) Sigogne; 6 & 7) Countances YB & OH.

For three nights and over, in the basket as above, 1551 divided by 60 sq. ins = **25.85 birds maximum allowed** in the National Flying Clubs crates, flying in the race; -

4) Pau Grand National.

The club cannot guarantee how many birds will be placed into the baskets but will ensure that they will not exceed the R.P.R.A. legislation limits. The club have done and will place lower numbers in baskets when race entries are known and it is appropriate to do so.

If you have any queries, please contact your officials. We will be more than happy to help you understand the correct circumstances etc.

Helpful questions and answers: -

Q1. *Why do the club 'cram' in as many as they can?*

The club doesn't. We place an appropriate number under legislation limits. The welfare of the birds is a priority and successful racing, results in success for the club.

Q2. *My other organisation i.e. club, federation, combine etc., only put 20 or 24 in, why are the National doing wrong and putting 29 in?*

On questioning various members, their own organisations use baskets half the size or smaller than the National. The National Flying Club are doing it right and comparison by numbers in baskets alone is absurd!

Q3. *How will the birds eat or drink with that many in?*

The birds are fed and watered on three sides of the baskets and with facilities where we have fed in the centre of the baskets, this is more facilities than any other club we are aware of. We deem ourselves to have the best facilities and this results in the best racing in the United Kingdom, if not the world. We receive many compliments from members stating how well the condition of their birds are in when they return from a race, even if it's been a testing race re the weather or when holdovers have occurred!

Q4. *I am unhappy with the numbers in the baskets, I am going to write to the papers and on a chatroom somewhere.*

We highlight that the numbers in a basket are correct re legislation and with the bird's welfare in mind, however we also point out that every member has the right to freedom of speech, but with this right, there is a responsibility to say what is truthful and correct. As a member of a club, we do not expect members to publicly write to the fancy press and/or online chat rooms where none members will read the comments which may well be incorrect, libel and may stop new members joining. Speak or write to your officials, committee members etc.,

ask for a response. Search out what is right from those in the know and don't give your club any bad and unwarranted publicity. Your officials, management committee and the majority of the members, the Club as a whole, with past Dukes, Princes and Kings as Presidents, with the clubs' heritage and yet forward thinking approach, want what's best for this great club.

NOTICE TO ALL MEMBERS

This handbook is produced and compiled by information given to the Secretary. This information is compiled into the handbook in a certain format. This is sent to a typesetter to produce into the final format to print. Each stage can produce errors. We notify you the members that although everyone endeavours to ensure the book is correct, it may not be and the National Flying Club cannot be held accountable or to pay out what wasn't passed or to carry on with something left in by mistake, due to the result of a typesetting error.

Please also be aware, with the publication of the results being made in the fancy press, any amendments are incorporated on the club's website result after the publication and as quickly as any come in, which can result in a number of changes at different times within and at the end of time when objections can be received.

NFC ACE Pigeon Awards

The NFC ACE pigeon awards, sponsored by Cest Pharma, are calculated using a Coefficient System being done by PBO Solutions/Paul O'Leary. The first five old bird races will count towards the award. There isn't any requirement for the fancier to nominate the pigeon/s, therefore each pigeon will be automatically entered for this award. For each race the pigeon will compete in, there will be a race coefficient which is calculated as follows:

Race Coefficient = (Race Position divided by Birds Sent) times 100. So, if the pigeon race position is 4 and there are 2500 birds sent to the race, the coefficient is $(4/2500) \times 100 = 0.160$. A low coefficient means the pigeon will have a top race position relative to total number of birds sent.

The NFC ACE Pigeon will be the pigeon with the lowest cumulative race coefficient over three best races. The fancier can send the same pigeon to as many races as the fancier wishes, but for a minimum of 3 races. So, if the fancier competes in all five races and the race coefficients are 0.16, 0.54, 3.70, 2.75 and 0.60, the NFC Ace Pigeon coefficient over his/her three best races is 1.30 ($0.16 + 0.54 + 0.60$)

There will be two sections, North and South and the split is based on the loft position in relation to Pau rpra code 5102 Liberation Point. If the loft is situated up to 650 miles radius from Pau the loft will be in the South Region and above 650 miles from Pau the loft will be in the North Region with the awards being: - The overall Ace pigeon will be the pigeon with the lowest cumulative race coefficient and the other Section winner.

Overall NFC Ace Pigeon Award:	NFC ACE Pigeon open to all pigeons in or over 3 best races competing in any Section. The first pigeon will receive the Cest Pharma Ace Pigeon Award Trophy, £500, products in the value of £500, a framed photo sponsored by Chris Sutton and a medal.
NFC Ace Pigeon Section Award:	NFC ACE Pigeon open to all pigeons in or over 3 best races competing in the other Section to the above. The first pigeon will receive £500 worth of products from Cest Pharma, a framed photo sponsored by Chris Sutton and a medal.

National Flying Club/PBO Solutions will produce other ACE Awards at Section and National Level.

Pigeon racers keen for more events in 2022

Chris George took this picture of the release of thousands of pigeons from one of the National Flying Club events.

Three planned at the moment, could be five

NATIONAL pigeon racing is set to return to Guernsey next year.

National Flying Club chief secretary Dom McCoy said the club had received a warm welcome to the island this year and that his members had enjoyed coming to Guernsey.

Over the course of 2021, thousands of NFC birds have taken part in races during three visits to Guernsey, including pigeons owned by the Queen.

'We will be back in Guernsey next year,' said Mr McCoy.

'At the moment, we are provisionally booking for three times, but it could be five times.'

The island was also a great location for the NFC, he said, with a final decision on the number of visits to be made at the club's annual meeting in January.

'It is a relatively short crossing to the UK, so it is good for getting our birds used to flying again. We always get a warm welcome

when we go to Guernsey.

'We, at the NFC, have over the years been to Guernsey numerous times and are always greeted by residents, and we are always happy to talk and answer numerous questions that the local residents ask us.'

'We are also always supported by lots of local residents and also fellow pigeon fanciers who live and race on the lovely island.'

'We look forward to returning and carrying on with the great relationships we have formed with the wonderful people of Guernsey.'

The most recent NFC visit to Guernsey saw more than 3,500 birds released, including a number owned by the royal family from Pembroke to race to their home lofts in the UK.

All clocks should be controlled/checked and read off on the day of the race with the proviso that the clock station I/c can control /check/read

6. Neither the Committee nor any officer of the Club shall be held liable to any clock owner for any damage or loss that may occur whilst the clock is in their or his/her custody; or in the custody of another competitor or in transit; but every holder of a clock shall be responsible for the clock issued.

In the event of a member having his clock opened and checked with an arrival and then re-set for further arrivals, a further fee of £1 is payable.

10. If a member intends to use a clock in a National race, which has not been tested and approved by another club he should contact the official i/c of the clock station he intends to use and make arrangements for the clock to be tested, at least one month prior to the race in which it is intended to use that clock. Clocks that do not have a "Clock Testing Certificate" will be refused.

11. Any clock station or club not complying with instructions issued by the Secretary will be withdrawn.

12. All clocks must be set no more than three days prior to the advertised liberation date. Should a clock stop, either through an accident or having run down, before a bird's arrival, the

member must first notify the Secretary and Clock Station Officer in charge, of his/her intention to time in on the nearest available clock and observe R.P.R.A. clock Rules, or have the clock re-set if convenient to the officials. GUIDANCE FOR LOCAL CLUBS SETTING CLOCKS FOR THE NATIONAL FLYING CLUB

We ask you to remember that some of the staff at the office of the National Flying Club are not pigeon fanciers and what is obvious to us is not to them. They can only type what they see on the envelopes.

We respectfully make the following requests to you and your helpers: -

1. PRINT ALL letters and figures clearly. Please make sure, as much as you possibly can, that all details on the envelope are clear, in the correct place, addresses are complete and all information is ACCURATE.
2. Help by checking that the members using your clock station or club have quoted their correct membership and are within the correct section. It must be the same as on his or her verification card. The verification card must be put in the members clock envelope and sent to the Secretary. If it is a Partnership, print the title in FULL. I fully appreciate that this is the member's personal responsibility, but some may require assistance.
3. Make sure that ALL dates are correct. Write in the month and put the dates in the box.
4. All times must be recorded on the 24 hour system. The computer works on this system and dials are printed this way for this purpose. Printing clocks record on the 12 hour system and must therefore be converted to the 24 hour system. If you have any members using a race master, please convert the time recorded to the 24 hour system.
5. DISTANCES. You do not need to put any distances onto the clock envelope, distances are received direct from the RPRA via computer.
6. RUBBER RING NUMBERS. Endeavour to write the outside and inside number in the correct box.
7. On using old clock envelopes, if a member clocks more than 5 birds or if a member clocks more birds than there are spaces on the clock envelope. Complete fully all envelopes. Never place one envelope inside another. Number them 1 and 2 and pin them together. Clock and master timer envelopes are available from the marking stations. E.T.S. only the printout and the verification form is required to be sent.
8. If a member has his/her CLOCK RE-SET because of a fault, then two envelopes must be completed. Place 'DUD' dials in one, mark it 'RESET', and send to the secretary.
9. If there is something wrong with a members clocking, such as a stopped clock, or he/she has failed to abide by the verification rule, you must send all dials etc., to the secretary and mark clearly on the envelope what is wrong. Clock setters or official clock stations cannot disqualify members: only the committee can do this.
10. Remember to complete and send to the secretary MASTER TIMER RIBBON AND ENVELOPE, complete the box requesting number of members who had a clock set.
11. Clock setters / Officers I/c. Never have anything to do with your own clock or clock envelope. Get someone else to complete sign and post it.
12. Clock envelopes / printouts etc., to be posted to the secretary as early as possible. **Post 1st class and send by recorded delivery.** There is no need to register. Post the next day after clock opening or on the Monday following the race - if flown on Saturday.
13. All clocks must go out from setting with number one box showing.
14. You are not required to supply dials or ribbons. Members must bring their own.
15. CLOCKS can be set 3 days prior to the date appointed for the liberation. For clocks requiring re-setting, the original clock envelopes should be marked 'RE-SET' and signed. A NEW ENVELOPE SHOULD THEN BE USED. In this case please be careful to insert on the clock envelope the correct date when the clock was re-set.
16. Clocks must be brought in sealed and have inside the box or clock a relevant Testing Certificate. Refuse any clock that is not sealed or does not have this certificate according to R.P.R.A. Rules.
17. IT IS VERY IMPORTANT to remember that All clocks must be checked in accordance with R.P.R.A. rules, clocks which do not show the day of timing in must be controlled if not checked on the day of timing, the day and time of clock checking will be determined by the officer I/c of the clock station. See Clock rule 5.
18. Master Timer is to be set and checked from Greenwich Time taken from the last pip of a BBC Time signal or from 'Tim'. The Master Timer must be struck with each batch of members clocks. After clock setting is completed the master timer must be struck against GMT and then stripped ready for resetting either for a re-set, should one be required, or for the checking of members clocks. When checking has been completed a final strike must be made with GMT before stripping the master timer. Whilst in use the Master Timer must be locked and sealed, depending on the type of clock used. This does away with any DOUBLE VARIATION. CLOCKS MUST BE STRUCK OFF ON AN EVEN FIVE MINUTES, any variation on the master to be adjusted so the variation on the Members clock is 'Actual', with no double variation being necessary.
19. MASTER TIMER ENVELOPES. Complete one of these for each race, recording all setting and checking times with GMT and variations. Put master timer dials or roll inside and send, with members clock envelopes, to the secretary. Ensure that the dials are signed and dated. Put members dials, rubbers, seals and verification card into the clock envelope, but do not seal it. Send it by RECORDED DELIVERY to the secretary in a large envelope. THERE IS NO NEED TO REGISTER THE PACKAGES.

20. **CLOCK ENVELOPES.** Please print one figure or letter only in each box. Complete all details. Record the puncture details from the dials only. Do not work out any variations as the computer does this. The only adjustment is when the clock has been set an hour fast or slow. In this case ENTER on the clock envelope the correct hour and not the punctured hour. **Clock setters must write their name, address and phone number on the back of the clock envelope and/or master timer envelope / printout and be countersigned by an independent R.P.R.A. member.** The fly sheet or front part of the Clock Envelope, after completion, should be returned to the competitor.
21. After Clock Setting complete a Clock Record Sheet. This sheet should list the members name, clock make and number, time set and variation, seal serial letter and number and the number of the slot showing. Only after checking, need a clock envelope be completed. It is important that the clock record sheet is retained by you for future reference.
22. Clock fees are £1 per clock and re-sets are also £1 per clock paid by the member to the clock setter. Members must supply their own dials or ribbons for printers.
23. **COMPETING MEMBERS IN CHARGE OF CLOCK STATIONS OR LOCAL CLUB CLOCK SETTING SHOULD NOT AT ANY TIME, AFTER SUBMITTING THEIR CLOCKS FOR CHECKING, HAVE POSSESSION OF THEIR OWN ENVELOPE.** These should be signed and posted to the secretary by another member.
24. Liberation Times. Liberation times can be got from the Race Update line. Telephone Number. Also from the web site: - www.nationalflyingclub.co.uk Do not phone a committee member.
25. List of early times. The list of early times will be sorted on the Race Verification Line and on the internet by the Secretary. This way we should achieve a comprehensive list for publication in the fancy press, the following weekend.
26. The above instructions are quite straight forward and vary little from normal club procedure. Where they do vary it is necessary so that correct information can be given to the computer, but if all instructions are carefully followed no difficulties should arise. The National Flying Club appreciates the work of the Clock Stations, its officials and club clock setters, without whose help no result would be possible.

CLOCKS & CLOCK STATIONS

CLOCKS - PLEASE NOTE

Make certain that your clock is in good running order.

When transferring your clock from one Station to another make sure that R.P.R.A. Rules have been carried out. If yours is a printer then check carefully that the ribbon and roll are in good order.

BEFORE leaving the Clock Station, check that your clock has a locking puncture or locking print and that it has been struck to the Master Timer.

If your clock has to be sealed see that it has been done according to R.P.R.A. Rules, with the official seals sold by the R.P.R.A.

Members using two clocks must be clearly labelled one and two.

If any of these rules are broken, it may lead to disqualification.

LIBERATION NEWS

Members may obtain the time of liberation, in any of the races, from the clubs own Race Update Line.

Phone 0906 753 4040. *Calls are charged at 80p per minute at all times inc. VAT.*

Liberation times will also be available on the club's website: - www.nationalflyingclub.co.uk

As most clock station officials themselves compete in racing, members are requested to consider and to co-operate with them at all times.

It is most important that both competitors and Clock Station officials make sure that figures and letters on Clock Envelopes are in the correct boxes and legible, otherwise errors occur causing not only delays in publication of results but loss of winnings to competitors.

THE PIGEON CLOCK HAS EVOLVED

Over the years, pigeon racing has seen the use of mechanical puncture clocks and battery or quartz printing clocks, before the first type of digital data recording with the T3. Finally, we are in an age of Electronic Timing Systems.

Topigeon has since become one of the most trusted brands and providers of ETS pigeon clocks for pigeon racing worldwide.

"Where the basket writes the pedigree"

Only established in 2018 and already forging a well renowned and very well respected business where by only good honest racing pigeons are brought to auction. So called "high profile" and "fashionable" families of pigeons play little part in our auctions, as we are firm believers that there is only one thing, and one thing only, that will never go out of fashion within the sport of pigeon racing.... And that is: Results and results alone...!!!

You will only see a small number of auctions with small numbers of birds from each fancier, ensuring only the very best possible quality is placed in our auctions...

No over hyped, over rated, over priced, high profile pigeons will be found in our sales, and that's a promise. When the auctioneer prides himself on such values of Honesty and Integrity then you can whole heartedly rest assured that, that is what you get.

Your one-stop-shop for iPigeon electronic timing system; Pedigree system; Online Auctions

iPigeon electronic timing system

The iPigeon is filled with all the latest available technology (e.g. GPS; GSM; touchscreen) and manages all of your Racing and Training activities with ease. It's a superb communicator with the ability to send SMS messages to up to 5 mobile devices plus it can send the same arrivals information to a web database which you can subsequently access and view your arrivals via a bespoke mobile phone APP. Whether you're considering your first ever ETS, or considering a change from your existing ETS, the iPigeon is a great technological choice

- Large touchscreen, free Stylus Pen issued for optimum ease of use
- Add and assign your own pigeons (note: all other manufacturers' ETS rings still compatible for assignment)
- Use an active SIM to send SMS to up to 5 mobile devices
- RFID reader also embedded on the Timer
- Competitive price including Starter packs, including single pad plus 10 chiprings from just **£480**
- Note: starter packs for NFC members will include 25 free chiprings

Pigeon Pedigree system

PBO's pedigree generation system has been available for almost 20 years now, and was among the first to incorporate digital photography within its pedigrees, giving your pedigrees a super high-quality finish. Your own Logo can also be printed on each pedigree, giving your pedigrees a unique look versus all other Lofts.

- Windows OS only
- Ten different pedigree layouts to choose from
- Racing and Commercial modules also within the system
- £80 inc. VAT (**special price of £70 incl. VAT** to NFC members)
- Free lifetime support (no annual re-engagement fees)
- Laptops can also be supplied (£poa)
- Clerical support can also be provided in entering up your stock birds (£poa)

Online Auctions

PBO is not the largest online auction provider, and has in the past focused mainly on importing and selling Dutch and Belgian pigeons into the UK market. Brexit, with the increased timelines and costs now faced when importing sales pigeons, has forced us to refocus our business, at least in the short term, and for the 2022/23 season we will be looking to take on more UK business, and in particular from NFC members. *** For any NFC member conducting a sale via PBO in 2022/23, **PBO will offer a 20% discount on its standard commission rate** *** ... just quote your NFC member when enquiring. Please note: PBO also acts as a purchasing agent, scouring many internet auction sites on a daily basis to source high quality pigeons, to order, for buyers.

FOUNDED 1898

NATIONAL FLYING CLUB

NOTICE

In the past, our previous bankers (*Nat West*) introduced high bank charges. Your secretaries looked into changing banks. After many meetings with Barclays etc., they informed our management committee about Barclays and via the AGM., the club changed to our current bankers, Barclays. We achieved free banking which has lasted some twenty or more years.

Sadly, we are being informed that charges will now need to be applied.

To offset/lower these charges, the National Flying Club will only pay out using a bacs payment system in replace of normal cheques. This means we require the member's bank account name, sort code and account number to transfer winnings electronically. **If you haven't supplied your** details already, we have catered to receive this information on manual subscription forms and on the Part B race forms.

When possible, all bills are being paid electronically via our online banking facility, ceasing payments by cheques.

We require members to pay us online, via the club website: - www.nationalflyingclub.co.uk This will allow us to stop processing manual cheques/postal orders. We do not accept direct transfers into the club accounts, direct to Barclays or Paypal. This is due to encountering identification issues and receiving incorrect payment amounts. The use of the website shop corrects these issues.

Although we accept card payments over the phone, having this feature is at cost and quite time consuming to your secretaries answering the many calls to take payments. We will be doing away with these machines and therefore the club website is the future.

If you cannot login or you are having difficulties, please contact your secretaries who can check your account / reset your password / change your e-mail address etc. We are here to help!

Mr. P. Naum, Chairman
