

Founded 1898

The National Flying Club

President: J K Edwards Esq.

At the NFC Committee meeting held on Sunday 12th October, it was decided to consolidate some of the smaller sending sections into other existing sections, making section pools more appealing to those Members, and a chance of the prestige associated with winning a bigger section. As a result, we will lose sections M, O, N, Q & W in 2026.

- M & O will transfer to L
- N will transfer to K
- Q will transfer to D
- W will be split into 3:
 - Fanciers flying above 680 miles from Pau (old code 5034) will transfer to L
 - Fanciers flying between 595 and 680 miles will transfer to J
 - Fanciers flying less than 595 miles will transfer to G

Any Membership Fees already paid for 2026 will be transferred to your new NFC code. Emails will be sent to inform affected Members of their new code. Members not on email will be advised by text or letter (if no other method is available).
